Massive Networks Launches Cloud Collaboration With cloudtrek

The initiative Aims to Provide an Easy and Cost Effective Way for Enterprises to Connect Directly to their Cloud platform.

IRVINE, Calif. & LOUISVILLE, Colo. - **Aug. 30, 2017** - *PRLog* -- **Massive Networks,** an enterprise-class data transport solution provider, today announced its cloud connectivity collaboration with **cloudtrek**. Through this initiative, Massive Networks and cloudtrek can provide an easy and cost effective way for enterprises to create dedicated and private connectivity to cloud services that can scale rapidly with changing business needs.

"cloudtrek is a major innovator of public, private, and hybrid cloud infrastructure, "said Chief Operating Officer, Kevin Flake. "With its global reach and focus on developing faster, better, and more cost efficient services, cloudtrek makes the perfect partner to enable with our effective interconnect services. In an era of cloud-enabled IT, enterprises require a cloud provider that can provide a full breadth of integrated services with end-to-end support for applications like Software as a Service (SaaS), Unified Communications (UCaaS), Cloud Backup Service (BaaS), and Infrastructure as a Service (IaaS). The cloudtrek Connect offers reliable and dedicated connectivity enabling faster deployment and migration of critical workloads in the cloud. We are thrilled to have forged a collaboration with cloudtrek and the talented teams behind their services."

Enterprise customers are continually looking for more choices when it comes to designing networks that can flexibly and quickly address the ever-changing workload requirements. Taking advantage of the Massive Networks global network and API integration with the cloudtrek Service – Cloud Exchange Connect, customers can quickly establish connectivity between their on premise data center or Colocation facility and Cloudtrek's cloud environment with higher premium-blended bandwidth options all the while receiving a consistent networking experience.

cloudtrek customers can obtain access to the Massive Networks global network through the Cloud Exchange Connect portal across 181 countries and 250 metro markets, with over 12 points of presence. From any of these locations, cloudtrek customers can rely on Massive Networks to provision the fast Cloud Exchange Connect to the supported cloudtrek regions. Initial integration will be available in Colorado and California with additional locations to expand in the future.

Highlights:

? **Global availability:** Customers can access the Massive Networks global network across 181 countries and 250 metro markets, with over 12 points of presence.

? **API integration:** Enterprise customers can rely on Massive Networks to provision the Cloud Exchange Connect via the Massive portal to the supported cloudtrek regions, initially in North America with additional locations will be added in the future.

"We are excited to partner with Massive Networks, this marks a new era for cloudtrek as we expand beyond

our local Southern California market. What we found partnering with Massive Networks is like minded, technology driven, experts that can provide networking infrastructure across the nation, exactly what our clients and resellers need."
