DATA SHEET:

# CLLOUD BACKUP SERVICE

COMPREHENSIVE DATA PROTECTION

## INSTANTLY RECOVER YOUR DATA FROM THE CLOUD

Avoid downtime when disaster strikes, hardware fails, or ransomware infections affect your business-critical systems. Our Cloud Backup is an enterprise-grade direct-to-cloud backup solution that protects servers, desktops, laptops, tablets, and smartphones, all in one solution.

The Massive Networks Cloud Backup Service lets you instantly recover your data and systems replicating your data off-site to the cloud. Backup as a Service protects your organization against server failures, site-wide disasters, and even ransomware attacks.

VARs, MSPs and other IT solution providers can now rely on Massive Networks for comprehensive data protection services.

## DATA PROTECTION

Protect all of your data on all of your devices from mobile phones to Exchange Servers.

## GUARANTEED SECURITY

Our Cloud Backup Service goes beyond basic encryption so you can move to the cloud with confidence.

## CLOUD REPLICATION

Replicate your data to any cloud, a private cloud, or a third-party cloud such as Google, AWS, Azure, or Oracle.
