

**MASSIVE
NETWORKS**
Enterprise-Class Data Transport Solutions

DATA SHEET:

DATA CENTER SERVICES

TOTAL ACCESS. TOTAL SECURITY.

DATA CENTER DIRECT CONNECT

Our One Pipe Multi-Connect solution offers a comprehensive line of Data Center Services across the nation.

Whatever you need for your network, we can custom design it, procure it and manage it at whatever level you need, for less than you are paying now.

At a time when everything is moving into the data center, Massive Networks believes it's time to bring the data center to your office.

THE MASSIVE NETWORK'S DATA CENTER SERVICES INCLUDE:

- Direct connect to your collocation cabinets and have all the ease of your online services or business services inside your LAN
- Direct connect to your Massive Cloud Services, makes it easier to deploy applications, manage, and troubleshoot when the servers are right at your LAN fingertips
- Direct connect to fully managed servers, we set them up and deploy them, but you still enjoy the ease of access to applications, web services, and business services on our Managed Servers.

Get free 10Mbps Direct Connect to Massive Data Centers and your servers with One Pipe Multi-Connect of 50Mbps or greater.
