

## Massive Networks Partners with INDATEL To Expand Its Infrastructure to Rural America

*Businesses Can Now Receive Reliable Broadband Connectivity via Fiber Optic Network Routes In Additional Rural and Urban Communities.*

**DENVER - March 7, 2019 - [PRLog](#)** -- Now rural America won't miss out on private networking opportunities. Massive Networks, an enterprise-class data transport solution provider, today announced that it had expanded its fiber footprint within rural and urban communities across America through a partnership with INDATEL Services. Firms looking to deliver their services on a private and more secure network can leverage the array of services that Massive Networks provides an additional 400,000 rural buildings with the help of INDATEL.

INDATEL, a nationwide wholesale carrier Ethernet and transport company, offers cost-effective transport connectivity via fiber-optic routes in rural and urban communities in over 37 states. Aligned with the best in class IP Transit providers to bring high-quality service at affordable prices to carriers, INDATEL is the largest rural-focused wholesale carrier in America.

According to **Justin Forte, the Vice President of Sales** at INDATEL, *"The relationship between INDATEL and Massive Networks is a true win-win. INDATEL will provide Massive Networks with unique assets they can use to help clients. INDATEL will benefit from the heightened visibility and reach that Massive Networks can provide."*

With years of experience in the telecom industry, Massive Networks aims to solve business connectivity problems through its One Pipe Multi-Connect Network Solutions. Massive Networks can tailor any business access or application to connect to their infrastructure, which bypasses the public Internet entirely. This approach offers additional security measures for businesses looking to comply with regulations or improve office-to-office performance. Massive Networks' 'Always-On' policy also helps businesses stay connected.

*"We're excited to have developed this partnership with INDATEL. Our combined efforts will offer additional coverage to the rural areas we support. Businesses in these areas can now receive similar benefits as their city dweller competitors such as redundant deliverability and private networking services at an affordable cost,"* said **Kevin Flake, VP of Strategic Alliances at Massive Networks.**
